

NIÑO NIEL IROC

Software Developer

iroc.niel123@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Cagayan de Oro, Misamis Oriental, PH

Professional Summary

Software Developer with 3+ years of experience designing, developing, and maintaining web applications, having architected high-volume data systems supporting 20,000+ records with measurable improvements in application performance, speed, and scalability. Proven expertise in implementing RESTful APIs, managing database schemas, and writing clean, maintainable, and efficient code while collaborating with cross-functional teams to translate requirements into technical specifications that meet business goals. Currently leveraging AI-assisted development tools, primarily Claude Code, to continuously improve development processes, accelerate testing and debugging, and deliver reliable, high-quality software applications.

Professional Experience

Software Developer | Syntactics Inc

June 2022 – Present | Cagayan de Oro, PH

- Designed, developed, and maintained a scalable web application, supporting 20,000+ equipment types with optimized MySQL database schemas, delivering measurable improvements in application performance, maximum speed, and scalability.
- Collaborated with designers and product managers in cross-functional teams to translate requirements into technical specifications, implementing RESTful APIs that enabled seamless data integration across multiple client systems while ensuring robust functionality aligned with business goals.
- Performed testing and debugging on MySQL databases to ensure reliability and stability, applying strong problem-solving skills to identify bottlenecks and optimize application performance for maximum speed and scalability.
- Created comprehensive technical documentation, including database schemas and architecture reports, participated in code reviews providing constructive feedback to team members, and implemented best practices and coding standards using Git version control for collaboration and code management.
- Partnered with cross-functional teams in a team-oriented environment following Agile methodology, demonstrating excellent communication skills while leveraging AI-assisted development tools (Claude Code) to continuously improve development processes, write clean, maintainable, and efficient code, and deliver high-quality software applications that enhance user experience.

Skills

Languages	PHP, SQL, JavaScript, TypeScript, HTML, CSS
Technologies	Laravel, MySQL, Node.js, Express JS, React, jQuery, Springboot, PostgreSQL, MongoDB, Docker, AWS, Git, Bash, Postman, Jira, VSCode

Education

Bachelor of Science in Information Technology (BSIT)

University of Science and Technology of Southern Philippines — Aug 2022
